With a desire to introduce a competent high quality construction chemical products and services for your project, we are pleased to introduce our company profile.

Penetron International Ltd. is recognized as an international leader in the field of concrete waterproofing, protection, and repair. Over the past 20 years the Penetron family products has established its reputation by meeting the most demanding job specification around the globe, from the semi-arc-tic rigors of Norway and Rusia to the torrid extremes of Saudi Arabia.

Based on Long Island, New York, the company was founded in 1979 by Robert J. Revera, a veteran of the concrete sealant industry who imbued ICS/ Penetron with a strong commitment to high technical standards. As such Penetron formulations undergo continuous refinement through the integration of the latest materials research as well as input from construction professionals in the field.

Today Penetron's sales and service network extends to more than 60 countries, providing the company a broad channel to share its experience and expertise. By combining superior product performance with exceptional client support, ICS/Penetron continues to define dependability and excellence in protective concrete treatments for engineers, architect and builders the world over.

The products adhere to the highest standards of environmental and ecological compliance, reflected in the numerous aquarium and reservoir projects in the company's portfolio. At the product level, the exacting quality control process at our state-of-the-art blending facility has earned us ISO 9001-2015 certification.

Coming back Vietnam market with Trading Representative Office, **PENETRON VIETNAM LTD. COMPANY**, so we are looking forward to have an opportunity to collaborate and work together with you for upcoming project.
